PostalOne!®

RELEASE NOTES 42.0.1

The *PostalOne!* system Release 42.0.1 is scheduled for implementation on January 5, 2016 to introduce software fixes to the system. This includes corrections to issues previously identified in a prior release.

These Release Notes provide the contents of the release and affected subsystems.

Contents of this document are subject to change.

Please note the following regarding the Mail.dat client download, there is no new client for Release 42.0.1.

Mail.dat client	Status
42.0.0.0_PROD	Download required. All older versions will expire.

TABLE OF CONTENTS

1. Corrections to Known Issues

The information for this section is derived from External Trouble Reports (ETRs) and Engineering Change Requests (ECRs).

1.1 Postage Statement Processing

Postage statement processing has been updated to enable postage statement lines C7 – C11 for First Class Mail Commercial Plus Prices (CPP). Prior to this release, a defect prevented users from claiming CPP (lines C7 – C11) on First Class Mail statements submitted through a BMEU or the Postage Statement Wizard with mailing dates between 01/03/2016 and 01/16/2016, even though the permit in use had an active First Class Mail CPP contract. 8798 {B}
